About us

Our company has provided airport transfers and taxi services in Prague since 2006 and we are well established in the Czech market. During this period we have transported a few million satisfied customers. We work as a contract carrier, which mainly deals with transportation between the airport and hotels in Prague.

Our motto is "Feel the difference" as we are doing our best to be different from other taxi operators by providing high-quality services, especially by offering a professional approach to our clients, whose satisfaction is our primary goal.

Our services

Our primary services are airport transfers. Besides private airport or train station transfers, we also offer cheap shared shuttle transportation. Other services include a chauffeur car hire, city and guided tours and excursions.

Our vehicle fleet

Our fleet includes over 150 vehicles, consisting mostly of mid-class sedan cars – Škoda Superb and Mercedes E, and minibuses – VW Transporter, Mercedes Vito, V class, and Mercedes Sprinter. We also offer a limousine service by Mercedes S-class vehicles or by stretched Lincoln, Cadillac, Lancia, and Hummer limos. For larger groups we can provide Mercedes Turismo buses. We can certainly meet the requirements of a wide range of customers.
